## HIPPOTHERAPY RESOURCES:

*Is Hippotherapy and Therapeutic Riding covered by insurance? Hippotherapy is physical therapy, occupational therapy, or speech therapy using the horse as a treatment tool; therefore, if your insurance has rehabilitation benefits, **your therapy sessions may be covered**. An order from a physician is needed for a therapist to evaluate whether a patient is an appropriate candidate for hippotherapy and patients must show that they need hippotherapy and are making progress to qualify for insurance coverage. According to [http://www.americanhippotherapyassociation.org/aha\\_hpot\\_a\\_sem.htm](http://www.americanhippotherapyassociation.org/aha_hpot_a_sem.htm), when using the horse or equine movement as a treatment tool within a therapeutic procedure it is then very appropriate to bill for units of service depending on how the tool is used. **See entire article for appropriate billing codes to share with your child's provider.***
